# **CAREER TRANSITION HANDBOOK**

*Data Science*

# Introduction

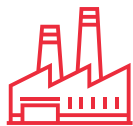

Data Science has been a growing career option which is bound to thrive exponentially in coming years. Here we curate stories of UpGrad students who took our Data Science course and have transitioned into a career which is much more aligned with their professional aspirations.

At UpGrad, our objective is to help individuals climb their future career ladder and make smoother transition into a more promising job profile. This handbook has career transition stories that will make you realize your own potential & help you take a step towards your long term professional goals.

Associate Consultant

Analyst

# From **Our** Alumni

“I've been having a great time learning with peers. The course is designed to be very "practice" oriented with plenty of coding and weekly assignments.”

**- Srungeer Simha**

*Resource Consultant, Shell*

---

“It's a perfect grind of course content, building basic foundation, practice scenarios, exams, case studies & deadlines, live Q&A sessions and last but not the least, the Post Graduate Degree from IIIT-Bangalore, recognized worldwide.”

**- Anshul Roy**

*Data Scientist, Delloite*

---

“The program is designed for working professionals and the support systems like Individual Mentor, Live sessions, Base Camps, Industry Connect, etc. do a commendable job of keeping us on track of disciplined learning.”

**- Gaurav Choudary**

*Deputy Manager, SBI*

---

I enrolled in the course and it was the best decision I took just after completing my B. Tech. At some point in your life, you have to take a calculated risk to achieve success in life and this was it.”

**- Abhinay Bandaru**

*Product Analyst, ace2three.com*
